2014**

The top bun is your topic sentence

The sentences that come next are your supporting detail. They are like the lettuce, tomato and hamburger patty in the middle

Holding everything together is the bottom bun of the hamburger. It is a concluding sentence.

Introductory Sentence

Topic Sentence

Supporting Sentences

Concluding Sentence

## Introductory sentence

- is usually located in the beginning and gives general statement before a **TOPIC SENTENCE**.

Introductory  
sentence

- A. Question
- B. Amazing fact
- C. Story

Study the following paragraph.  
 Identify the introductory sentence.

Did you know the difference between the Internet and the Web? The difference between the Internet and the Web is sort of like the difference between highways and a delivery service. The Internet is like a system of highways. Information traffic from the Web travels over the Internet. On the other hand, the Web is like a delivery service. Delivery service trucks use highways to move packages from one place to another. All in all, these illustrations show the differences between the Internet and the Web.

(Modified from "What is the Internet" [http://www.angelfire.com/dc2/shahzad/World\\_Wide\\_Web.htm](http://www.angelfire.com/dc2/shahzad/World_Wide_Web.htm))

## Cloud Computing and Agricultural Development of China: Theory and Practice

Yanxin Zhu <sup>1,2</sup>, Di Wu<sup>2</sup> and Sujian Lil <sup>2</sup>

<sup>1</sup>School of Mechanical Engineering, University of Science & Technology Beijing, Beijing, China;

<sup>2</sup>School of Business, Shijiazhuang University of Economics, Shijiazhuang, China

### Abstract

Cloud computing technology has brought the development of China's agriculture; but it also brings unprecedented challenges. According to the development of cloud computing, based on the status quo of cloud computing, the paper first discussed the development of cloud computing for China's agricultural development, the field and the prospects of its development in agriculture; then presented the application of cloud computing technology in agriculture, which is a long-term process. Only need to build the center, integrate the service capabilities, and need to make

**Keywords:** Cloud Computing; Agricultural Modernization

### Technique: Amazing Fact

Cloud Computing is a distributed computing technology, through a computer network the huge computing will be split and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available within seconds.

### 2. Cloud Computing Technology Overview

Cloud computing is a distributed computing technology, through a computer network the huge computing handler will be split and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available within seconds, so the users not only can get super computing capabilities but also can reduce resource inputs and waste. This is a paid service usage model, with ready access to demand unlimited expansion metering pay features, including IaaS (Infrastructure-as-a-Service), PaaS (Platform-as-a-Service),

# Let's compare the two sentences!

Your 1 <sup>st</sup> Sentence	Revised Sentence
<p>Cloud Computing is a distributed computing technology, through a computer network the huge computing will be split and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available within seconds.</p>	<p>Cloud Computing is a distributed computing technology, through a computer network the huge computing will be split and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available within seconds (Zhu, Wu, Lil, 2013).</p> <p>Cloud Computing is a distributed computing technology, through a computer network the huge computing will be split and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available within seconds (Zhu et.al., 2013).</p>

# Let's compare the two sentences!

Your 1 <sup>st</sup> Sentence	Revised Sentence
<p>Cloud Computing is a distributed computing technology, through a computer network the huge computing will be split and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available within seconds.</p>	<p>Cloud Computing is a distributed computing technology, <b>via</b> a computer network the <b>enormous</b> computing will be <b>divided</b> and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available <b>really quickly</b> (Zhu, Wu, Lil, 2013).</p>

# Let's compare the two sentences!

Your 1 <sup>st</sup> Sentence	Revised Sentence
<p>Cloud Computing is a distributed computing technology, through a computer network the huge computing will be split and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available within seconds (Zhu et.al., 2013).</p>	<p>We know that nowadays every sector has been supported by Improvement of Technology.</p>

Ok, you are safe.

But no group topic and specific topic.

# Let's compare the two sentences!

Your 1 <sup>st</sup> Sentence	Revised Sentence
We know that nowadays every sector has been supported by Improvement of Technology.	Cloud Computing is computing technology for storing large data.

# Let's compare the two sentences!

Your 1 <sup>st</sup> Sentence	Revised Sentence
Cloud Computing is computing technology for storing large data.	Improvement of technology including Cloud Computing (CC) has supported every sector of industry especially in agriculture.

**This is much better.**

**The sentence has group topic & your specific topic**

# The Process of Writing Introductory Sentence

Cloud Computing is a distributed computing technology, through a computer network the huge computing will be split and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available within seconds.

We know that nowadays every sector has been supported by Improvement of Technology.

Cloud Computing is computing technology for storing large data.

Improvement of technology including Cloud Computing (CC) has supported every sector of industry especially in agriculture.

# How to avoid my suspicion?

Cloud Computing is a distributed computing technology, through a computer network the huge computing will be split and analyzed by a number of separate servers, then ultra millions or even hundreds of millions of information services will be available within seconds. Cloud Computing is catching on for large providers of Agricultural services and as a tool to help Agricultural researchers in the field and in the lab.
